P.S. Feb 1844

I have lately heard two Russians talk "Great jealousy" of the mass of the Cyzicen &c – But neither expressed the least doubt of the after being Genuine except in regard to (No. 58) "Ay Seignior Turpetio" – perhaps all of I have long had misgivings; all - except the ✱ which more completely refuser by "Seigne" but he condemned all one as was - strictly admitted to be Genuine.
